

CANON EF 70 200MM F 2 8 IS II USM USER MANUAL

### **canon ef 70 200mm pdf**

A workhorse of a lens, the Canon EF 70-200mm f/2.8L IS II USM is an L-series telephoto zoom characterized by its bright f/2.8 constant maximum aperture and optical image stabilization. The fast maximum aperture affords greater control over depth of field and benefits working in low-light conditions while the Image Stabilizer compensates for four stops of camera shake for sharper handheld shooting.

This lens is of a conventional design and was introduced in 2005, to offer an increase in performance from the earlier 75-300mm lenses in the Canon EF lens lineup. Like the 70–300mm f/4.5–5.6 DO it contains an image stabilizer; however, for focusing it uses the lower quality micro-USM design, and therefore requires the focus motor to be disengaged before manual focusing.
