Organizational conflict, or workplace conflict, is a state of discord caused by the actual or perceived opposition of needs, values and interests between people working together. Conflict takes many forms in organizations. There is the inevitable clash between formal authority and power and those individuals and groups affected. There are disputes over how revenues should be divided, how the ...

In a field like nursing, where passions and tensions run high, learning to handle conflict effectively is a critical safety skill. 1 Conflict occurs when two or more values, perspectives and opinions are contradictory in nature and have not been aligned or agreed upon. Conflict will always be present in the workplace and is an inevitable condition that is essential for change.
