A while ago I documented for AcrobatUsers.com how to manually import an Excel data record into a PDF form. You can find this information here: Can I import data from an Excel spreadsheet to a fillable PDF Form? This is very useful if you only have to deal with one or a few records that you need to import into PDF forms, but what if we are talking about 10s or 100s of records?

A limited liability company (LLC) is the US-specific form of a private limited company. It is a business structure that can combine the pass-through taxation of a partnership or sole proprietorship with the limited liability of a corporation. An LLC is not a corporation under state law; it is a legal form of a company that provides limited liability to its owners in many jurisdictions.
