The problem with the proposed solution is that there are too many one off solutions: You can print a single page, but it in an envelope and mail it. [The first that came to my mind] You can print a single page, scan it and send it in an email. You can put the page on screen (hi-res or low res), take a picture with a digital camera, connect the camera to the computer take the jpg and email.

A single market is a type of trade bloc in which most trade barriers have been removed (for goods) with some common policies on product regulation, and freedom of movement of the factors of production (capital and labour) and of enterprise and services. The goal is that the movement of capital, labour, goods, and services between the members is as easy as within them.

### **Single market - Wikipedia**

Document management and real-time collaboration are built right into Revu. Studio Projects give you a single centralized location to store documents—even entire building projects—in the cloud. And Studio Sessions let project teams review, mark up, modify and update the same files at the same time. So partners worldwide can instantly connect on the same set of documents.
