HPC Advisory Council Best Practices. The HPC-AI Advisory Council provides best practices, that through experience and research, have shown to improve clustering and applications productivity.

### **HPC Advisory Council - Best Practices**

The boundary element method (BEM) is a numerical computational method of solving linear partial differential equations which have been formulated as integral equations (i.e. in boundary integral form). including fluid mechanics, acoustics, electromagnetics (Method of Moments), fracture mechanics, and contact mechanics.

Negative-index metamaterial or negative-index material (NIM) is a metamaterial whose refractive index for an electromagnetic wave has a negative value over some frequency range.. NIMs are constructed of periodic basic parts called unit cells, which are usually significantly smaller than the wavelength of the externally applied electromagnetic radiation. The unit cells of the first ...

Undergraduate Study. The Department of Mechanical Engineering (MechE) offers three programs of undergraduate study. The first of these, the traditional program that leads to the bachelor's degree in mechanical engineering, is a more structured program that prepares students for a broad range of career choices in the field of mechanical engineering.

Elena Freeland's new book *Under and Ionized Sky: From Chemtrails to Space Fence Lockdown* is a must read. Indeed, I have added it to our list of Best Books for 2018 in the 2017 Annual Wrap Up. In *Under an Ionized Sky*, Freeland connects the dots between the satellite infrastructure of the national security state, the cell towers and networks of the telecommunications companies, HAARP and the ...
